

PROJECT FLOW

Team id	PNT2022TMID17524
Project name	Visualizing and Predicting Heart Diseases with an Interactive Dash Board

The screenshot shows the IBM Cognos Analytics with Watson web application interface. The browser address bar displays `us3.ca.analytics.ibm.com/bi/?perspective=home`. The application header includes the IBM Cognos Analytics with Watson logo, a search bar, and user profile icons. A maintenance banner at the top states: "Maintenance: The upgrade is now complete. Click on More Info to see what actions may be necessary and to subscribe to future events". The main content area features a large welcome message: "Hello. Welcome to Cognos Analytics with Watson." Below this, a sub-header reads: "You can get started right away by taking a look at our introduction video, product tour and Getting Started tab." Two buttons are provided: "Watch video" and "Take a product tour". To the right of the text is a 3D isometric illustration of data cubes and server racks. Below the main content area, a "Quick launch" section contains four tiles: "Upload data" (with an upward arrow icon), "Prepare data" (with a data module icon), "Exploration" (with a magnifying glass icon), and "Present data" (with a presentation screen icon). Each tile includes a brief description of its function. The Windows taskbar at the bottom shows the search bar, task view button, and several open applications including Edge, Word, File Explorer, Mail, PowerPoint, and Excel. The system tray on the right indicates the weather as "Rain off and on" and the time as 09:19 PM on 21-11-2022.
